Job Posting

Position: GIS Developer
Job Type: Full-time

Position Description:
RAMTeCH Software Solutions is a global GIS consulting, data management, and software solutions company specializing in the utility and telecommunications industries, and government. We are seeking a GIS Developer to work either in our Minneapolis/St. Paul, Minnesota office or remotely. This position will be involved in software design, development, and implementation of GIS based solutions. Work in a team environment with project managers, consultants, developers, and clients to provide analysis, design, programming/configuration support for Esri’s ArcGIS Portal and Platform implementations, integrations, and related geospatial and mobile projects.

Position Requirements:
- Experience with ArcGIS Server REST API development, ArcGIS Engine development, ArcGIS Explorer development, and ArcGIS Desktop development
- Knowledge of system architecture including the component interactions and interfaces, and the technologies and resources to be used in the design
- Experience with systems analysis, design, testing, development and implementation of application software with either .NET technologies (C#, ASP.NET) or Java technologies (J2SE, J2EE, RMI)
- Experience with application development estimating, planning, testing, and progress tracking
- Experience with ArcSDE administration with MS SQL Server/Oracle databases
- Knowledge of Relational database, including Oracle or SQL Server RDBMS
- Experience with XML, GML, KML, Web services, application servers, Web servers, and/or SQL performance tuning SQL performance tuning
- Experience with C#, WPF, WCF, Python programming skills
- Knowledge of electric, gas, and/or water utility business and operations
- Knowledge of concepts, practices and procedures (Control Objectives for Information and Related Technology, and IT Infrastructure Library®), including change management, software/systems development life cycle for application development, IT Service Management (ITSM), and IT governance
- Strong written and verbal communication skills and excellent listening skills for individual interactions and in group settings

Experience and Education Required:
- Minimum of 3-5 years’ experience developing GIS applications utilizing the ESRI suite of software products, including experience programming ArcGIS Server 10.x and ArcObjects and proficiency using ArcGIS desktop software and extensions.
- Education: Bachelor’s or master’s in computer science, GIS, cartography/geography, engineering, or a related field.

Additional Job Details:
Travel: Moderate travel within the U.S.
Work Authorization: US Citizen
